

bathrooms to love

brought to you exclusively by our bathroom specialists

Visit our website to get inspiration, see additional product information, images and videos, plus lots more!

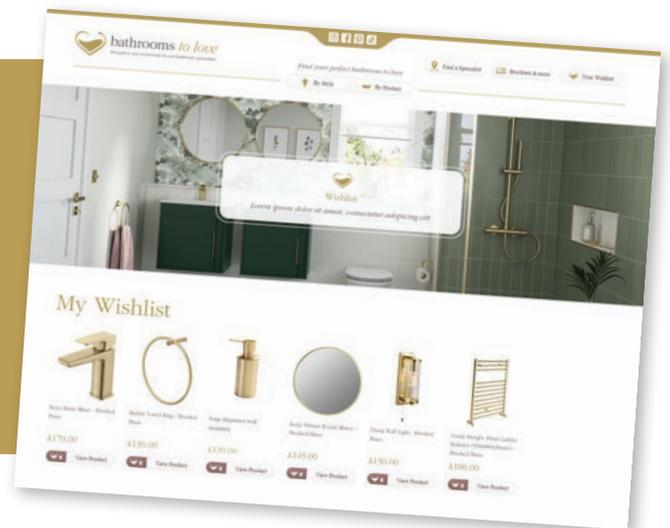

Browse our product ranges or choose to Be Inspired

Browse through our range of on-trend bathroom products, or check out our Browse by Style section for an abundance of bathroom ideas to help get you started.

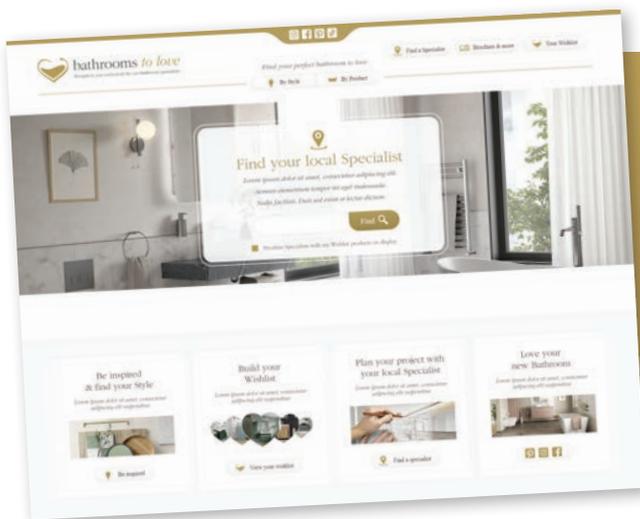

Create your personal Wish List

Use our Wish List feature to save the products you love – you can then share this list with your local Bathrooms to Love showroom so that they can help you turn your ideas into reality.

Find your nearest Bathroom Specialist

Bathrooms to Love products are available through a network of specialist retailers, offering design and planning advice through to installation.

Get inspired

When planning your new bathroom it may be hard to know where to start. Gather your ideas and thoughts into a mood board using images you see on websites and social media channels like Pinterest and Instagram; it's a great way to narrow down the bathroom styles you like and will help you create your perfect look.

Be sure to follow us for lots of inspiration and ideas

Bring your ideas to life

Throughout this brochure you'll find QR codes to scan, which give you either detailed product videos or the opportunity to visualise our products in your own space.

New

Push

Wall hung & floor standing furniture

Contemporary, handleless, push to open doors and drawers and a stunning chamfered edge design make Push a smart choice.

The basin units can be styled with a thin edge, ceramic, sit in basin or with a coordinating worktop and washbowl. There is also the option to team the units with elegant legs to give a floor standing look! Add to that the stunning choice of colourways you'll find Push is a very desirable, customisable collection.

New

Ligne

Floor standing furniture

Ligne's unique design of geometric lines and elegant maple 'framed' legs make it an on trend collection.

With a choice of fashionable super matt, fingerprint proof finishes, handle designs and optional maple effect worktop to match the legs, you can customise the look to fit with your interior style. Plus, Ligne has a shorter depth than some of our other ranges making it a perfect fit for those short on space!

See page 224

Venosa

Floor standing furniture

Venosa is perfect for compact bathrooms with its small footprint of just 1100mm in width. An integrated basin with handy left or right hand extended worktop not only offers useful shelf space but also an easy to clean to surface. A two-door cabinet beneath the basin, teamed with a connected housing area for a concealed cistern and back to wall WC, makes Venosa a great choice for a coordinated look.

Style setting
suites

98-125

The shape of your suite sets the style for the rest of your bathroom, so it's important to consider what look & feel you want overall when choosing. We have sizes to suit large bathrooms or small cloakrooms and a range of shapes that reflect the most popular current styles.

Fully shrouded - straight to the wall to hide pipework

Back to wall

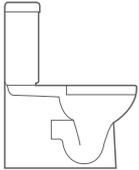

Semi recessed basin

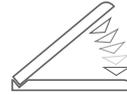

Open back - giving easy access to pipes

How to choose the *right suite options for you*

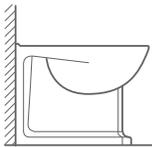

Close Coupled WC

A close coupled WC has the cistern resting directly on top of the pan towards the rear.

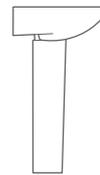

Soft Close Seat

The soft close function ensures that the seat and lid close slowly without banging against the pan, reducing noise and risk of damage.

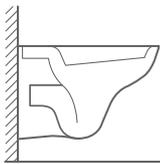

Back to Wall WC

A back to wall WC has the concealed cistern hidden behind a wall or fitted furniture.

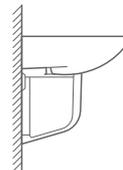

Full Pedestal

The most popular choice, a full pedestal hides all the pipework whilst supporting the basin.

Wall Hung WC

The pan is held off the ground by a hidden supporting frame and, as with a back to wall WC, the cistern is hidden.

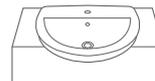

Semi Pedestal

Increasingly popular, a semi pedestal sits under the basin and hangs from the wall, freeing up floor space below it.

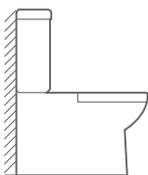

Rimless WC

Rimless WCs are easier to clean as they flush without needing a rim.

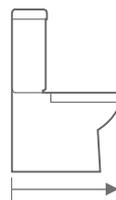

Semi Recessed Basin

Designed to be mounted into a work surface or furniture, the front of the basin protrudes forward, whilst the rear part is recessed.

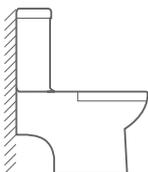

Fully Shrouded

The waste pipe and water inlet are fully shrouded within the ceramic, the toilet sits flush against the wall.

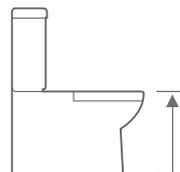

Short Projection

Reduced depth pans don't project out into the room as far as a standard toilet, making them perfect for smaller spaces.

Open Back

Open back toilets have access at the back for your pipework, perfect if you are planning to box in the pipes from left or right.

Comfort Height Pans

Set at a 450mm height or more, comfort height pans provide added comfort, especially for taller people or the elderly.

Tilia

Square design with a soft finish

On-trend design, with a smooth finish to this stylish square suite.

Its fine design incorporating ultra thin edges complements any bathroom design.

Rimless the height of cleanliness

Rimless WCs are easier to clean as they flush by propelling jets of water around the bowl without needing a rim.

They are highly efficient and can easily be incorporated into any bathroom and can be mixed perfectly with other products in the range.

Cilantro

Smooth curves & clean lines

With its smooth curves and clean lines, the understated style of Cilantro complements many looks and works well in any bathroom.

Wall hung frame systems

Frames allow you to safely and securely fix wall hung products. They provide support for wall hung WC's loaded up to 400kg. Frames can be used inside a partition wall, behind tiles creating the illusion of space by freeing up the floor area.

Supercast[®] baths

What is Supercast[®]?

Strength and beauty combined

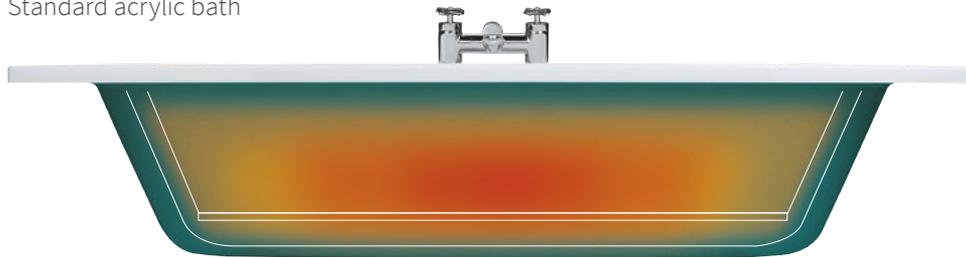

Supercast is a substantial reinforcement process for an acrylic bath.

This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

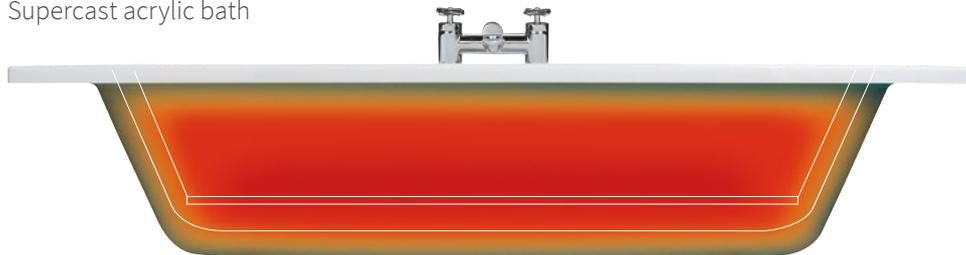

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic resulting in a product that is smooth and ever so easy to clean.

The intensive reinforcement processes and final (grey) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

FEATURES

Height: 2015mm (including rail)

8mm toughened safety glass

Easy clean glass coating

Suitable for both wetroom floors and on shower trays

Comes with 1 metre stabilising bar which can be cut to fit your space

SIZE		Adjustment (min/max mm)	
700mm	£502	675 - 690	DIEW7002
800mm	£502	775 - 790	DIEW8006
900mm	£502	875 - 890	DIEW9006
1000mm	£542	975 - 990	DIEW1008
1100mm	£584	1075 - 1090	DIEW1104
1200mm	£584	1175 - 1190	DIEW1208
1400mm	£681	1375 - 1390	DIEW1404

TRAYS INCLUDE WASTE

High flow vortex waste

SHOWER ENCLOSURES

Linear Shower Trays

Unique to the Linear range is smart water capture technology where liquid is drawn from the surface and delivered at the correct velocity to a capture chamber beneath the waste cover. This ensures that the vortex waste unit is fed at the optimum rate allowing it to function at up to an incredible 30 litres per minute, keeping excess water and soap deposits to an absolute minimum. The waste unit has no moving parts and is entirely self-cleaning, making this technology extremely reliable and reducing the possibility of blockages.

- Designed & made in the UK
- 25mm high, 100% natural stone resin
- Rectangular 75x297mm stainless steel flush fitting waste cover (full load bearing)
- Lifetime guarantee

Refresh with our
shower
collection
214-241

Choose a mixer shower that connects to the hot and cold water supplies and then mixes the water inside the shower to your selected temperature.

Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

Alternatively, electric showers connect to the cold water main supply. A heating element inside the unit heats up the water as it passes through. It doesn't rely on stored water and provides instant hot water on demand.

- 216-223** Vema showers
- 224-236** Mixer showers
- 237-238** Triton mixer showers
- 239-241** Triton electric showers
- 241** Triton power showers

VEMA

Italian design, engineering, elegance and practicality.

These are the characteristics that you can count on by trusting in VEMA.

The balance between beauty and reliability will add a touch of quality to any bathroom.

Every detail shows the long experience of those working for many years in the taps and fittings industry with reliability and competence at its core.

Mixer showers

These connect to the hot and cold water supplies and then mix the water inside the shower to your selected temperature. Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

For information on water systems see Technical Specifications page 350.

Mixer showers

Thermostatic valves

Thermostatic mixing valves protect against scalding. The thermally sensitive mechanism within the valve mixes hot and cold water to a preset temperature. The mechanism automatically compensates for any variations in pressure or temperature to maintain a safe temperature.

**EXE LEVER COOL TOUCH
BAR MIXER SHOWER**
DICM0074 **£276**

- Cool touch feature ensures that the valve remains comfortable to touch
- Easy to use lever handles
- Suitable for all water systems including gravity fed

- 1.25m anti-twist hose

DENE CONCENTRIC THERMOSTATIC MIXER SHOWER

DICM0264 **£496**

- Separate controls for temperature and flow adjustment
- Suitable for all water systems including gravity fed
- Riser rail shower kit with adjustable wall fixing centres
- 3 spray pattern, rub clean showerhead
- 1.25m anti-twist hose

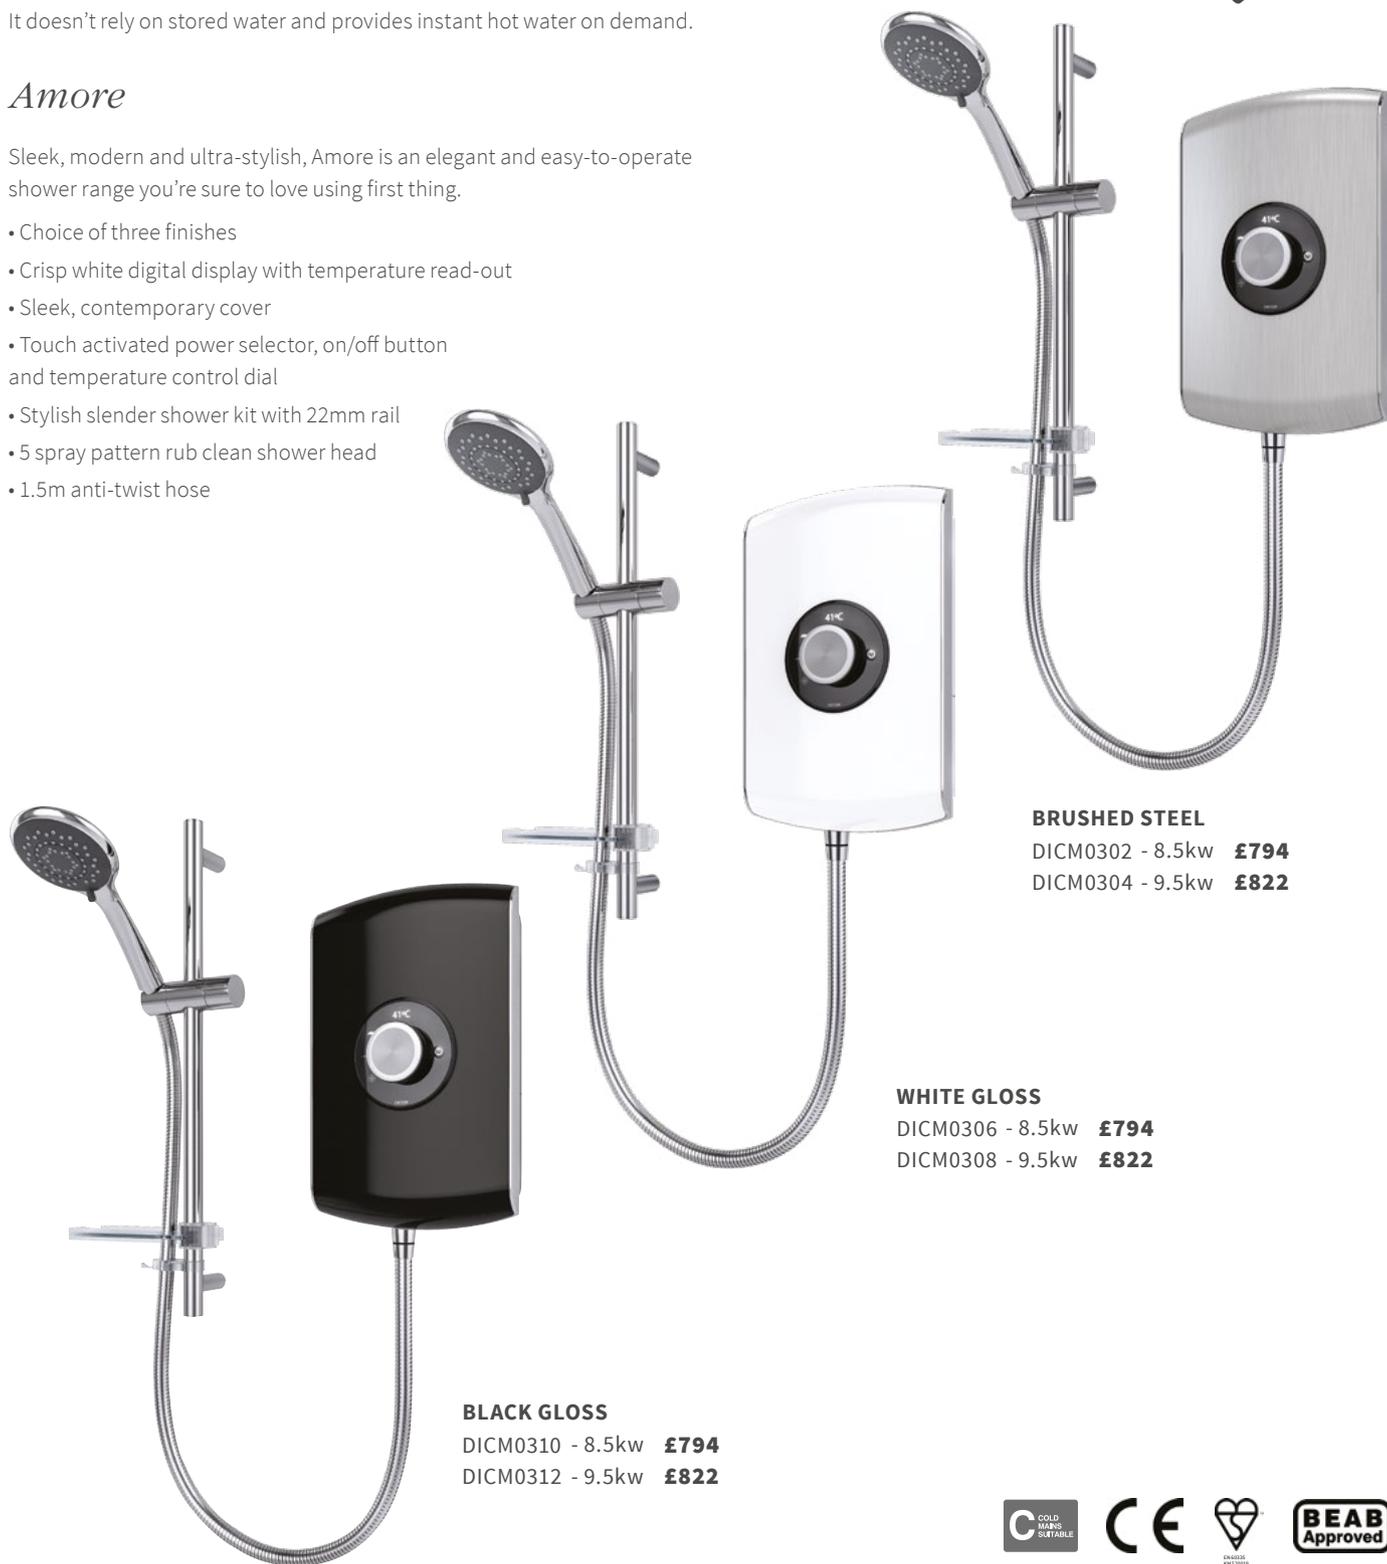

Electric showers

These connect to the cold water mains supply.
A heating element inside the unit heats up the water as it passes through.
It doesn't rely on stored water and provides instant hot water on demand.

Amore

Sleek, modern and ultra-stylish, Amore is an elegant and easy-to-operate shower range you're sure to love using first thing.

- Choice of three finishes
- Crisp white digital display with temperature read-out
- Sleek, contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Stylish slender shower kit with 22mm rail
- 5 spray pattern rub clean shower head
- 1.5m anti-twist hose

Power showers

Triton's silent running thermostatic power shower is so quiet that when the water is running, you won't hear the pump, and as such has been awarded the Quiet Mark award of approval.

The AS2000SR is the perfect solution for those with low pressure systems, providing a great flow rate of up to 14 litres per minute.

AS2000SR SILENT RUNNING THERMOSTATIC POWER SHOWER

DICM0502 **£732**

- Easy to use start, stop button and variable temperature and flow controls to select the perfect shower setting
- Adjustable maximum temperature stop
- Multiple cable and water entry points makes the AS2000SR an ideal replacement shower
- Suitable for low pressure gravity fed systems only
- 5 spray pattern rub clean shower head

Take time for our

Finishing *touches*

278-321

With our range of accessories, from feature radiators to underfloor heating; from simple mirrors to extravagant lighting; from hooks and holders to rails and rings, you can easily add personality to your bathroom.

- 280-289** Radiators
- 290-291** Warmup underfloor heating
- 292-311** Mirrors
- 312-315** Lighting
- 317-321** Accessories

Heating features

Radiators & Towel warmers

CH *Central Heating*

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

E *Electric*

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless of whether or not the rest of your central heating is on. An electrical element kit (see page 288) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

DF *Dual Fuel*

The best of both worlds! This type of installation is plumbed with indirect central heating systems and or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

Underfloor heating

With over 30 years of innovative design, Warmup's radiant underfloor heating solutions are trusted for their high-quality design, ease of installation and market-leading warranties.

As the world's best-selling floor heating brand, Warmup's range of energy-efficient electric and water floor heaters and thermostats have been installed in over 2.6 million homes.

All Warmup products feature comprehensive warranties and installation guarantees, and their 24/7, 365 days a year customer support offers you true peace of mind.

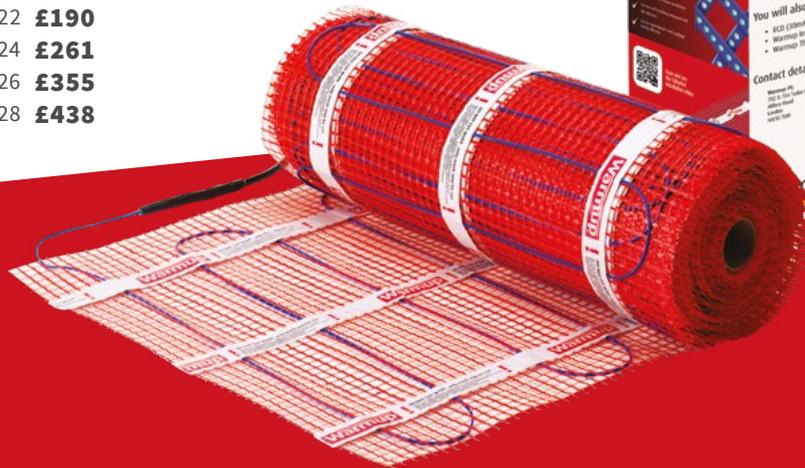

Warmup

The world's best-selling floor heating brand™

WARMUP STICKYMAT

The Warmup StickyMat consists of a thin loose wire evenly spaced and taped to sturdy glassfibre mesh with pressure sensitive adhesive. It allows for the fastest and most secure installation of electric underfloor heating. Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms.

150 watt undertile sticky heating mat 1m ²	DIAC0022	£190
150 watt undertile sticky heating mat 2m ²	DIAC0024	£261
150 watt undertile sticky heating mat 3m ²	DIAC0026	£355
150 watt undertile sticky heating mat 4m ²	DIAC0028	£438

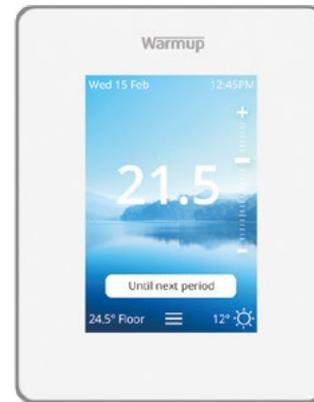

SAFETY Net
Installation-Guarantee

WARMUP LOOSE WIRE SYSTEM

The Warmup Loose Wire System uses an ultra-thin, dual-core heating wire that is flexible, easy to install and will not raise floor levels. This system is quick to install and has a single connection lead for fewer steps. It offers flexibility and is ideal for precise installation in irregular shaped areas.

Dual wire undertile heater 300 watt - 1.5 to 2.4m ²	DIUH0002	£233
Dual wire undertile heater 400 watt - 2.5 to 3.4m ²	DIUH0004	£271
Dual wire undertile heater 600 watt - 3.5 to 4.4m ²	DIUH0006	£374
Dual wire undertile heater 800 watt - 4.5 to 5.9m ²	DIUH0008	£487

6iE SMART WIFI THERMOSTAT

- Onyx Black DIUH0014 **£414**
- Bright Porcelain DIUH0016 **£414**

The 6iE Smart WiFi Thermostat combines advanced technology with premium design and materials to create the ultimate underfloor heating controller. It is quick to install, comes pre-programmed and can be up and running within a matter of minutes.

Featuring the world’s first Smartphone touchscreen on a floor heating controller, the 6iE WiFi Thermostat offers true ease of use - simply scroll and swipe to set your ideal heat schedule. The 6iE can be personalised with custom photo backgrounds and its clean, low-profile design will suit all contemporary homes.

TEMPO DIGITAL PROGRAMMABLE THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Porcelain White DIAC0030 **£193**
- Piano Black DIAC0032 **£193**

The Tempo Digital Thermostat is an easy-to-use programmable underfloor heating controller that offers a clear and simple way to set your ideal heating schedule. With intuitive design, the Tempo can be up and running in mere minutes and its Early Start algorithm means it can learn how long it will take to heat up a room, making sure it’s at the right temperature, at the right time for you.

Suitable to use with all Warmup Underfloor Heating Systems, the Tempo thermostat offers true ease of use; with a twist of the dial, you can have radiant floor heat when you want it.

ELEMENT WIFI THERMOSTAT

- Dark Chrome DIUH0018 **£290**
- Rose Gold DIUH0020 **£290**

The Element WiFi Thermostat has been designed with simplicity and stylish functionality in mind. It brings energy-efficient heating control to all Warmup floor heaters. Combining Smart technology with simple, contemporary design, the Element WiFi Thermostat is the perfect all-rounder to control Warmup heating systems.

The Element WiFi Thermostat utilises simple touch buttons for accurate control of your underfloor heating system. Its sleek, unobtrusive design will suit any home décor.

SmartGeo technology learns the end-user’s routines; offering radiant warmth at the right temperature, at the right time, automatically. Plus, with energy-monitoring functionality and the ability to be controlled remotely, using the Element with Warmup’s ‘MyHeating’ and ‘AutoSwitch’ smartphone apps, Element can reduce energy usage by 25% and help save money on the user’s energy bills.

Mirror features

Battery Operated - If you want to avoid wiring but still require LED lighting. Quick and easy to install.

IP44 Rated - All of our products comply with electrical safety regulations and have been given an IP rating of 44, which protects against sprays and splashes of water. See technical specifications for bathroom zones.

Demister Pad - Many of our mirrors contain a demister pad which gently heats the mirror once it is switched on. This then makes the mirror steam free.

Rotatable - Some of our mirrors can be positioned landscape or portrait.

Touch Sensor - Easily allows you to switch your lights on and off with touch.

Infrared Sensor - Easily allows you to switch your lights on and off with the swipe of a hand. No touch needed*.

Charging Socket - Suitable for electric shavers and toothbrushes.

Dimmable - Lighting that can be adjusted at the touch of a button.

Colour Changing - Adjust the light from cool to warm.

Lighting

Our stunning collection of bathroom lights are all IP44 rated and so suitable for use in zone two.

Zone 1

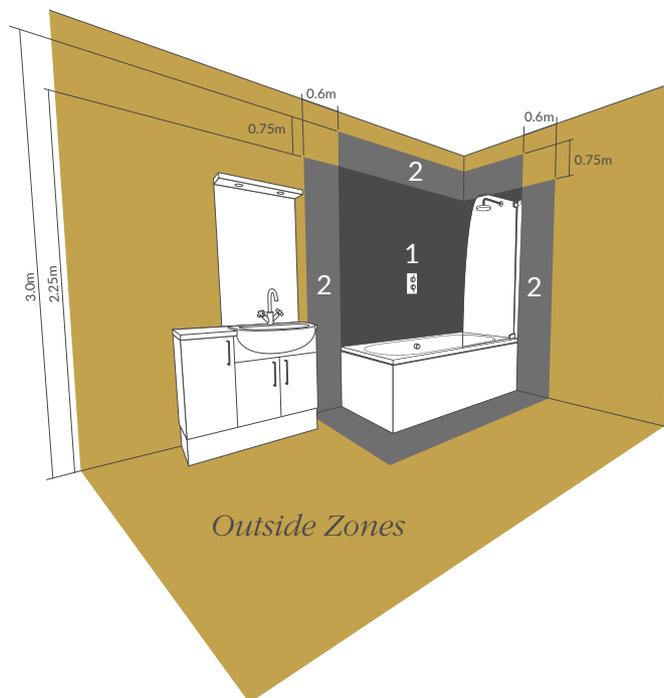

Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).

Zone 2

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

Outside Zones

Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

Shower water systems

There are a few different types of water systems in homes in the UK. We can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

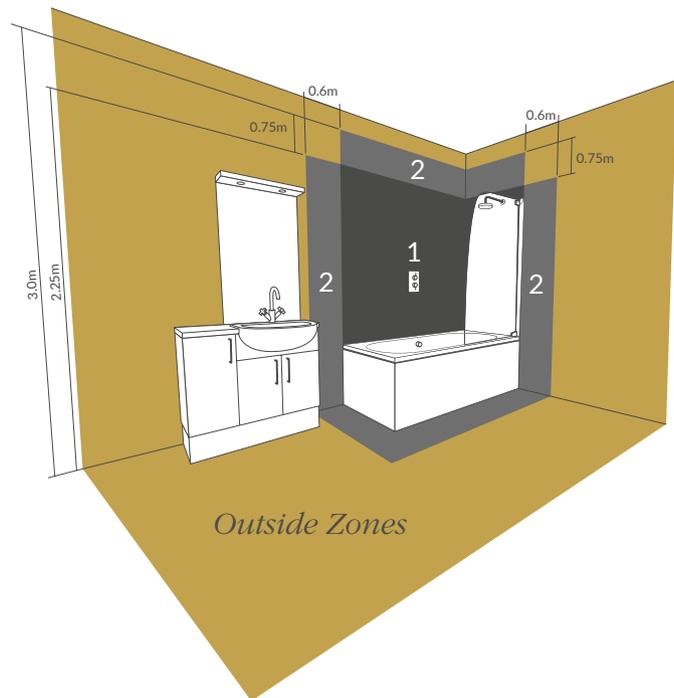

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

Mirrors & lighting

Zone 1
Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).

Zone 2
Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

Outside Zones
Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar. Minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

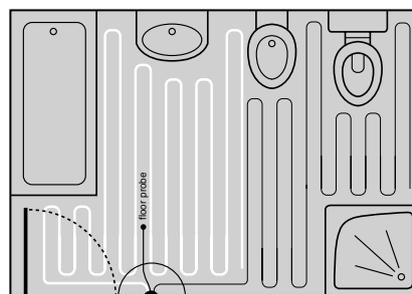

SEALED/UNVENTED SYSTEMS

These are modern systems. If you have a hot water tank, but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Terms and conditions

Your new bathroom products have been designed and manufactured to high standards and all come with a reassuring manufacturer's guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, they may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.

Due to our policy of continuous improvement, we reserve the right to amend specifications, designs and colours without prior notice.

Suggested selling prices are including VAT. Due to circumstances beyond our control, prices may have to be altered including changes to the rate of value added tax.

The colours and finishes shown in this brochure are as accurate as possible within the limits of the printing process. Please note we always recommend viewing an actual swatch of our furniture ranges before purchase.

Whilst every effort has been made to ensure accuracy of the information supplied herein, we cannot be held responsible for any errors or omissions.
